Transcript:

I'm against the acquisition of the CNN with the EJ&E for um, mostly because it would clog up traffic so much in this area and it's already clogged up. I was going to buy a house south of where the train tracks cross Cedar Road and Galvut Road, but I can't do that. I'm an airline pilot, I have to be at the airport and going from 6 trains a day to 28 trains a day at four minutes a piece, um I'd never be to work on time. My husband is an airline mechanic, he has to be to work every day and that would just clog up traffic and not just for us, but the traffic situation in New Lennox is such right now that the traffic is busy and let alone blocking off a train, you know, for twice an hour for four minutes that's not, um, that's not gonna work really well. So, unless they build uh overpasses, underpasses, viaduct, some sort of accomodation on Cedar Road, Galvut Road, Spencer Road, um any of the roads that the train will cross um, I don't see that this would be good for this area because it would essentially cut off the town and cut off all um, industry from one end to the other and people wouldn't be able to get to work because most people work from here to Chicago and they will have to cross those tracks to get to work. So thank you very much and have a great day.
