

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8-27-08

The 20+ Additional RR Freight
trains will destroy our way of life. It
will cause delays in ambulance &
hospital access. It will skyrocket
up the expenses. They already
are costing us this well because it
increases. The CN is recklessly destroying
our way of life to increase their profits.
They are doing nothing to mitigate the worst of
the situation.
