

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8.27-08

I am concerned about the safety issues involved with this plan. As a physician, I am aware how difficult it will be for pts to get to Coon Shepherd Hospital for emergency or needed care.

I am also concerned about the volume of traffic coming through our community on Route 14 and Lake Cook Rd & Rt 59. The impact of these traffic issues are quite severe to this community.
