Transcript:

I am calling to say that you should approve the CN purchase of the EJ & E. I've spent many of hours waiting for many of trains going traveling throughout the South suburbs especially in the South Holland and Lansing area and my children go to school there and I think it's only fair that we share the burden of the train system throughout the Chicago land area and the suburbs and not just pick on those that are poorer inland suburbs. I think that it is outrageous that they would consider not doing this. So please, I want them please approve the CN purchase of the EJ & E. Thank you.
