Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

I am against the purchase of the EJ&E by CN for the following reasons:

- ① Our community was developed without the concerns of heavy train traffic - had we started with heavy train traffic it would have been developed differently - now we are tied to the tracks. Only communities were able to build around the heavy train traffic.
- ② Our cost of mitigation of any sort is huge - we simply can't afford it at any level. Had we been able to build accordingly, we would have budgeted and planned accordingly.
- ③ Safety of children on school buses that cross train tracks is paramount - being from 4 to 5 trains per day to 20+ per day is a significant risk.
