

Mr, Navecky,

please Block the GLBT
Rail Line. There still is a question
of who is funding this project.
One Backer (a railroad) has already
Backed out and other Railroads say
that it's unnecessary. There are other
options being implemented in Chicago
already including CREATE which is
showing results already. Please consider these
options while you are deciding the fate
of thousands of people being affected
by this unnecessary project. Our dairy
farm only has 200 acres which if
any land is lost there won't be enough
land to support the cattle there and
it WILL result in us suspending
the dairy operation. 'Cows don't like
loud speeding trains either.' please
deny GLBT's request to destroy so much
of our lives Thank you, Herb Renner
