The noise and vibration levels of the current train traffic are already extreme. The train horns need to stop.

The traffic on Ogden Ave is very congested at rush hours. It already takes me 45 minutes just to go from downtown Naperville to my home via Ogden Ave.

The quality of life in the communities within a few miles of the tracks is poor and suppresses real estate values with all the noise and traffic. My children are constantly being awakened at night with the very loud noises.

My families safety is at risk with increased train traffic. My daughter has Leukemia and we have needs to get her to a hospital quickly. The congestion created by the current levels of traffic already do not allow this.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
