A comment is added on your issue:

Re: Environmental and Historic Report - rail abandonment project in King County , WA

== Created by JEMH via e-mail from:Anderson, Kim
<kimberly.anderson@aecom.com> ==

Hi Ms. Brooks,

I appreciate your quick response on this. We received the same initial response from you after I sent a letter about this project to you on 7/12/21. A follow-up email from you on 8/5/21 (attached) indicated that no geodetic survey marks were found that would be affected by the project. This correspondence is included in Appendix C of the Environmental Report and also referenced on Page 3 of the final report. I'm wondering if we could get a revised response from you that reflects this previous communication and the 8/5/21 findings.

I suspect that this is an auto-generated response, as it is the same one we received with our initial letter to you asking for comments about the project. One intent in

sending the initial letter was to receive and address agency input prior to finalizing the report to reduce the need for follow-up communication and report revisions.

Please let me know if you have any questions about this or need further clarification.

Sincerely,

Kim Anderson PWS
