RE: CN Railway Company/EJ&E
STB Finance Docket No. 35087

Dear Secretary Quinlan:

As a resident of Cicero, I am writing in support having fewer freight trains come through the Chicago area. CN's proposal to acquire a part of the EJ&E rail will allow CN to reroute many of its freight trains out of the Chicago area and onto less congested tracks.

A serious concern of mine is the train crossing on Oak Park Avenue, which is a main access route to MacNeal Hospital, the closest hospital to many of the residents of Cicero, including me. If one were stuck on the north side of the tracks, the delay could be as long as 15 minutes while waiting for a train to get through. This would be an unacceptable amount of time to wait in an emergency.

It is important that the number of trains traveling through Cicero is reduced. I hope you will approve CN's proposal and allow the residents of the Chicago area to experience some relief from the railway congestion. Thank you.

Sincerely,

Mary Lang
