Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

While every community does not want to be a focal point for increased train traffic the main issue which is more unique for our community is safety. Barrington has the distinct pleasure of being crossed in its downtown area which is the main access point for school, hospital and everyday traffic. To have train traffic through an area which already faces grid lock on any given day is absurd. School buses slow the trucks in 14 min of 800 time a day. Safety is going to be compromised. There should be funding to upgrade all crossings in municipal areas especially where they run through and cut off traffic to fire emergency facilities, etc.

If you want to buy the railroad and put increased traffic through established communities then you need to also upgrade crossings + make sure that emergency access vehicles will be able to get to all areas.

YOUR INPUT IS IMPORTANT!
