E-Mail: ajthden@earthlink.net

How will CN's proposed acquisition of the EJ&E impact you?

As CN proposal stands it's ludicrous to think it won't negatively impact the communities where the tracks exist. Among all the areas of health concerns, traffic congestion, noise & environmental detriment, safety issues, etc., it would appear that there would be a better solution to move this proposal in a less populated area. Lake County continues to increase its population and the CN impact will only cause increased problems in all areas as mentioned above. Since my neighborhood abuts the tracks there would also be a devaluation of my home as well. This proposal should not be allowed to be realized.
