For the week ending November 11, 2022, Norfolk Southern's data shows that on average 76% of Norfolk Southern's total qualified T&E employees were available to work on a given day. Note however, the "available for work" number includes employees who work local or yard assignments who show as available on their scheduled rest day due to current technology limitations. Those employees are in fact not subject to call, meaning that they are on their scheduled rest day and are not in fact available for work. On average for the week ending November 11, 2022, 7.2 % of those employees showing as "available" were in fact not subject to call, meaning that the average of qualified T&E available for work was in fact just 68.8% of total qualified T&E employees. That number fluctuated depending on the day of week, with Saturday having the lowest availability over the week. The following pie chart illustrates the key drivers of crew availability, which include FRA mandated rest, vacation, illness, and Family Medical Leave act absences, among others.

AVERAGE WEEKLY STATUS (11/05/2022-11/11/2022)

■ Available ■ Rest ■ Vacation ■ FML ■ Other ■ Unexcused

² This figure reflects the number of trainees who entered training during the month of November. The most recent class of trainees began on October 31, 2022 and included 107 new trainees. Because of the Thanksgiving holiday, the next trainee class will begin on November 28, 2022.

Norfolk Southern will continue to update the Board on its progress toward service recovery on a bi-weekly basis.

Sincerely,

/s/ Hanna M. Chouest
