CN | EJ&E

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

The proposed purchase of EJ&E railroad by CN should be stopped.

In Lake Zurich, we will face a huge increase in the danger to our children. Our kids cross the tracks on school buses over 230 times. There are no overpasses. All grade level. In addition, the line backs up to the high school & a local grade school as well as parks. Because CN has had a history with hazardous chemicals, we are very concerned with this as well as the danger of our kids being hit.

In my neighborhood,
The train will block at least 3-4 intersections in 22 at a time. We will be locked into our community. We can't get ~~into~~ past the train ~~stop~~ nor can safety vehicles - fire & police - get to us.

Why can't CN limit their train length? Why can't they pay for OVERPASSES? If the transaction is so needed & beneficial make them pay to keep US citizens SAFE from harm & keep our traffic flowing.

YOUR INPUT IS IMPORTANT!
