Transcript:

I wanted to say that I stand in opposition to the proposed acquisition for the following reasons. The major one for us right now, is the fact that the boundaries have been redone where my son will be attending a high school where he has to cross railroad tracks on a daily basis, at least twice a day, there to and from, and I'm already nervous enough about that, especially when he starts, you know, he originally starts driving, much less with the increased traffic. Also I see the significant vehicle delay at railroad crossings, when our roads are already congested and I'm concerned about the safety of the crossings, mainly emergency response times, and in addition to the usual increase in noise, pollution, vibration. But I guess my, that's my stance, I wanted to let you know that I do stand in opposition of the proposed acquisition. Bye
