Transcript:

I'm in the Caroline Community and I oppose the purchase of the E&J&E by CN because we hear noise at this point from the trains and if we're going to be increasing from 16 to 42 per day, we're going to hear even more. I'm concerned about the length of the trains and also I'm concerned about the emergency response because I have both a son that's in the fire department in Naperville and I have a daughter-in-law that's in another department, but I realize the need for people's, especially emergency vehicles to get across tracks and if they're gonna be delayed because of the lengths of the trains, then I would be very concerned about that. So I thank you very much for listening and hopefully this will not pass.
