Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8-27-08

x Having lived in this community for 38 years we have seen many changes but the change that 20 trains a day may be detrimental to our communities. Peoples safety, Peoples businesses, quality of life all will be affected negatively.

Let's have a trial run. Let's shut down the E) & E line for the time it would take for a 2 mile train to run through our town. Let's see what it does to the community and then let's do it 20 times in a day and see what happens? Not a desirable outcome!

Why can a Canadian Company come in and alter the outcome of our country? Why are american tax dollars paying for a ~~canadian~~ Canada's benefit.
