All of us who live/work in the greater Barrington area have very serious concerns with the proposed CN purchase and planned dramatic increase in use of the EJ&E line. NOTE - The EJ&E line divides the Barrington area and as a result...

1. Will seriously impact the response time of emergency services, fire, paramedics, police and there is NO way around the EJ&E line!!
2. Will have a significant effect on the vehicle traffic - 20 times a day it will bring traffic to a gridlock halt - including school buses.
3. "Pollution" both noise and vibration will increase twenty fold - pity those who live any where near the tracks.
