Dear Sir or Madam,

I reside in the vicinity of Lofa and Ferry Rds in Aurora. Every EJ&E TRAIN that rolls thru causes significant vibration to my home.

My Questions + Comments are:

① What are the plans and procedures for handling spills? There are several environmentally fragile areas adjacent to tracks.

② With regard to the Reliant Power Plant + natural 36" gas lines, near rail lines, what safeguards are-or will be in place?

③ How will noise and vibration be minimized?

④ How will this affect the Star Line Project?

⑤ Where will additional track be built? Will it be on the entire line or just a few places for passing?

⑥ Will this affect Fermi lab with vibratory effects on experiments?

⑦ What will be in place to ensure that current bridges can handle the increased capacity + maintain structure?

⑧ Emergency response teams? Who and how quickly? Integrate

⑨ Evacuation protocols? How implemented?

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
