

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8-28-08

1) Train-cars are "rented" between Rail Lines so the Lines want very much to get those cars moving so they really want the Canadians to buy the Elgin Line, and go around:

Also money is lost when the cars do not move

2) Will more trains be added or lengthened.

3.) Vibrations - will damage much property

4.) Noise Pollution - will be ~~un~~ unbearable.

5) Accidents will increase -

6) Emergency medical needs.

These communities were set up with the Railroad being a part of the plan - then reverse everything - only money is important to the railroad -

7) Take a look at the Railroads going into Chicago - the immediate areas are "slums"
