Message:

With regard to CN purchase of EJ&E. Until CN purchase includes a satisfactory plan addressing community issues and environment this transaction serves only to benefit CN with significant detriment to Hoffman Estates II. Road traffic on route 59 will be much degraded. The grade crossing at Shoe Factory road will become more hazardous since visibility west bound is obstructed by a large hill. Travel in general throughout the area will degrade during rush hour resulting in long travel time. This will hardly go unnoticed by the population and be very unpopular. In short this will make a great mess.

Tom Thompson
