

080218 Katzberg

Hi, my name is Mary Katzberg. I live at 1214 Shoreline Drive, Aurora IL 60504. My concern is that there are basically, if I had to take a guess, roughly ½ a million people that would be affected by this if you just count Aurora, Naperville, Plainfield, and Joliet and this is a huge impact on the homeowners. Many of our children are going to be traveling across the tracks to go to two of the high schools. One of the grammar schools for school district 204, that's Indian Prairie School district and if they were going to do this, they need to put overpasses in. You are disrupting ½ a million people on a daily basis at several different crossings. It's not like it is just one crossing. It definitely divides up where people are traveling on a constant, everyday basis. I beg of you, please don't do this or if you do, please make them put overpasses in so that this is not a daily disruption and a safety hazard for our kids going to school. Thank you very much for your time. My number is 630-585-8154. Thank you.
