Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: August 25, 2008

Comments must be submitted by September 30, 2008.

Many People in Park Forest cross the EJ&E Tracks to go to the Metra Station in Matteson each day. with 38 trains a day, many of them switching up to the CNN tracks, there will be many delays. Alot of these trains will be backed up over Western Ave and Cicero Ave. Most of the trains in these days are Two miles and more long. There are only Two underpasses in probably 25 miles.

It will also be a battle for Am-Trak to make the CNN keep their word about maintaining the Air line. The land where the Air line is located is worth very much Money and the CNN would love to sell it at a great Profit.

All of the Towns along the EJ&E are growing at a fast rate. In a few years the Traffic on the roads will be as busy as where the CNN is moving its Train traffic from.

It seems they want to make much more money by spending very little.

YOUR INPUT IS IMPORTANT!
