SERVICE DATE – FEBRUARY 13, 2024

SURFACE TRANSPORTATION BOARD

DECISION

Docket No. NOR 42175

COMPLAINT AND PETITION OF THE NATIONAL RAILROAD PASSENGER CORP.
UNDER 49 U.S.C. § 24308(f)—FOR SUBSTANDARD PERFORMANCE OF AMTRAK’S
SUNSET LIMITED TRAINS 1 AND 2

Decided: February 13, 2024

By decision issued on July 11, 2023 (July 2023 Decision), the Board initiated an investigation under section 213 of the Passenger Rail Investment and Improvement Act of 2008 (PRIIA), Pub. L. No. 110-432, 122 Stat. 4848, codified at 49 U.S.C. § 24308(f)(1), to examine the cause(s) of substandard on-time performance of Amtrak’s *Sunset Limited* service from October 1, 2021, through December 8, 2022. The *Sunset Limited* is a 1,997-mile-long Amtrak passenger train service that runs three times weekly, in each direction, between New Orleans, La., and Los Angeles, Cal. The route travels mostly over track hosted by Union Pacific Railroad Company (UP), as well as track owned or operated by Amtrak, BNSF Railway Company (BNSF), Canadian National Railway Company (CN) (operating through its subsidiary Illinois Central Railroad Company), the New Orleans Public Belt Rail Corporation (NOPB), the Southern California Railroad Authority (SCRRA), and Canadian Pacific Kansas City Limited (CPKC), all of which are considered necessary parties to the investigation. See July 2023 Decision, NOR 42175, slip op. at 10; Complaint & Pet. of the Nat’l R.R. Passenger Corp. Under 49 U.S.C. § 24308(f)—for Substandard Performance of Amtrak’s Sunset Ltd. Trains 1 & 2 (CPKC Decision), NOR 42175, slip op. at 2-3 (STB served Sept. 12, 2023).

The July 2023 Decision also set forth a procedural framework for the investigation, under which (among other things) the Board would conduct an initial round of fact-finding by directing the parties to answer interrogatories and produce documents. July 2023 Decision, NOR 42175, slip op. at 12-13. That decision also noted that, after receiving the parties’ responses, the Board “may issue more interrogatories and/or document requests or otherwise seek further information.” Id. at 13.

Thereafter, by a decision served on February 6, 2024, the Board delegated certain investigative authority to the Director of the Office of Passenger Rail, including: requiring the production of any information that is likely to be directly relevant to the issues of the Board’s passenger on-time performance investigation, and disposing of routine procedural matters directly related to the foregoing delegations.

The Board has reviewed the record to date and has determined that it requires additional information. The parties will be directed to respond to the questions below, further to the

Board’s obligation under 49 U.S.C. § 24308(f), “to determine whether and to what extent delays or failure to achieve minimum standards are due to causes that could reasonably be addressed by a rail carrier over whose tracks the intercity passenger train operates or reasonably be addressed by Amtrak or other intercity passenger rail operators.”

I. Host-Responsible Delays—Except Slow Order Delays

As required by the Board’s July 11, 2023 decision, Amtrak produced a list of train delays during the Relevant Period.¹ (Amtrak’s Reply, Sept. 25, 2023 (“Public Workpapers,” (file name “Amtrak_STB_Native_0002.xlsx,” worksheet “CategorizedDelayDetails_v3M”)).) This list encompasses over 22,000 individual delays and includes conductor delay notes. The Board requires further explanation from the parties about these delays. Because it is not practical or necessary to require narratives covering tens of thousands of delay events, the Board will require supplemental information on an illustrative selection of the delays. The selection is comprised of two subsets of delays that require further explanation by the parties.

The first subset consists of host-responsible delays that were identified by isolating, from among all *Sunset Limited* train runs during the Relevant Period, the twenty runs per direction that incurred the greatest number of host-responsible delay-minutes. Each of these forty train runs was analyzed individually to identify, on a subdivision-by-subdivision basis, particular delays for investigation. These include stand-alone delays of fifteen minutes or more, plus clusters of proximate shorter delays potentially sharing common characteristics and/or related impacts. Excluded from the list—in addition to non-clustered stand-alone delays under fifteen minutes—were those delays ascribed by Amtrak to slow orders (coded as “DSR”). Such delays often reflect the evolution of rail carriers’ long-term track maintenance programs and are the focus of the next section below. Finally, the list omits delays where a root cause was discernible based on the data in context and the conductor delay report (i.e., the “Delay Reason” notes submitted along with Amtrak’s delay data).

This first subset of delays is presented in the Appendix, Part I, “Host-responsible Delays on a Run-by-Run Basis,” first by train number, then chronologically on a run-by-run basis. Each delay entry specifies the railroad that Amtrak identified in its delay data as the responsible railroad (“Host RR”²). For each delay listed, the party listed as the responsible railroad will be ordered to provide an explanation of the root cause(s) of the delay(s). Parties are required either to provide a narrative explanation for each stand-alone delay or cluster of delays, or to group stand-alone delays and/or clusters together where a common root cause or causes will explain the

¹ The Board has defined the “Relevant Period” for this investigation as October 1, 2021, through December 8, 2022. Complaint & Pet. of the Nat’l R.R. Passenger Corp. Under 49 U.S.C. § 24308(f)—For Substandard Performance of Amtrak’s Sunset Limited Trains 1 & 2, NOR 42175, slip op. at 20 (STB served July 11, 2023).

² Amtrak Reply, Sept. 25, 2023 (“Public Workpapers” (file name “Amtrak_STB_Native_0002.xlsm,” worksheet “CategorizedDelayDetails_v3M”)).

grouped items. Examples of the explanation of root cause(s) of delay(s), may include a detailed explanation of a dispatching decision, the chain of events leading to a particular delay, intervening events, and any other relevant piece of information that will illustrate the underlying reason for a delay to an Amtrak train.

The second subset is made up of individual host delays, not included in the first subset, that were identified based on their duration (90 minutes or more). After taking into consideration the characteristics of the *Sunset Limited*'s schedule and the delay data provided, 90 minutes appears to be a reasonable cutoff point that would provide an adequate, but not overly burdensome, number of delays for more detailed examination. As in the first subset, the second subset excludes delays where a root cause was discernible based on the data in context and the conductor delay report. The parties will be required to provide an explanation of the root cause(s) of delay(s) if they were listed as the responsible railroad in Amtrak's delay data. This second list appears as Part II of the Appendix, "Select Host-Responsible Delays of 90 Minutes or More."

The subset of delays for which the Board requires additional information in Part I and Part II of the Appendix is based on delay data the Board directed Amtrak to provide.³ (Amtrak Reply, Sept. 25, 2023 ("Public Workpapers" (file name "Amtrak_STB_Native_0002.xlsx," worksheet "CategorizedDelayDetails_v3M")).) Any party that believes a correction needs to be made to data found in the Appendix should bring that to the Board's attention in a filing.

II. Host-Responsible Delays –Focused Questions: Slow Orders by Subdivision

CN, NOPB, UP, and BNSF will be directed to provide information on slow orders for each of the following subdivisions: Lafayette Subdivision (UP), Houston Subdivision (UP), Beaumont Subdivision (UP), Glidden Subdivision (UP), Del Rio Subdivision (UP), Lafayette Subdivision (BNSF), and McComb Subdivision between East Bridge Junction and Southport Junction (CN and NOPB):

1. For each week of the Relevant Period provide the total slow order minutes⁴ in effect based on the maximum authorized speed for passenger trains;
2. For each week of the Relevant Period provide the carrier's target maximum minutes of slow order delay (if such targets existed during the Relevant Period); and

³ Parties may request, from the Investigation Liaison, a machine-readable spreadsheet of the delays listed in the Appendix that contains all of the Amtrak submitted columns.

⁴ "Slow order minutes" are the differences in running times at posted maximum authorized speed during normal operations on any part of the railroad versus the running time on that same part of the railroad when trains are slowed by temporary speed restrictions (i.e., slow orders).

3. Where there are multiple main tracks, show the slow order minutes and targets for each of the main tracks (Main 1, Main 2, etc.) separately from the slow order minutes and targets shown for the single main track territory for each subdivision, on a week-by-week basis.

III. Amtrak-Responsible Delays

Based on Amtrak's list of all *Sunset Limited* delays in the Relevant Period⁵ and in light of the explanatory annotations provided by Amtrak's conductors, Amtrak will be directed to answer the following questions.

1. What is Amtrak's strategy for reducing the incidence and duration of, avoiding any impact on passenger comfort and well-being caused by, and mitigating the effect on *Sunset Limited* on-time performance resulting from, delays due to locomotive failure (delay code "ENG")?

2. What determines the length of time that Train No. 1 holds at San Antonio for connection with Train No. 21, the westbound *Texas Eagle*? Is there a time limit for holds for connection at San Antonio?

3. How much time is required at Los Angeles and New Orleans to service an inbound *Sunset Limited* trainset for the subsequent *Sunset Limited* origination?

IV. Site- and Party-Specific Questions

Live Oak to West Bridge Junction

BNSF and UP will be directed to respond to the following questions:

1. Does BNSF or UP control the switches and signals in the connecting crossovers at Live Oak?
2. Does BNSF or UP own and maintain the former Southern Pacific main track between Live Oak and West Bridge Junction?

East Bridge Junction to Southport Junction

The Board will direct CPKC, CN, NOPB, Amtrak, and UP to provide responses to the following:

⁵ Amtrak Reply, Sept. 25, 2023 ("Public Workpapers" (file name "Amtrak_STB_Native_0002.xlsx")).

CPKC

Regarding the crossing diamond west of Southport Junction where CPKC's rail line crosses CN's rail line:

1. What is the design speed of the crossing diamond?
2. What is the current maximum speed of this diamond on the CN Amtrak route? What was the maximum speed of this diamond during the Relevant Period?
3. If the current speed of the diamond is less than the design speed, how long has its speed been restricted? List any speed restrictions of the diamond during the Relevant Period.
4. Has this crossing diamond been replaced during the last year? Was this crossing diamond replaced during the Relevant Period?
5. Would the diamond have to be replaced for the speed on the CN Amtrak route to be raised?

CN

1. What was the maximum speed allowed on the *Sunset Limited* route between East Bridge Junction and Southport Junction before it was leased to NOPB in December 2019?
2. Does CN's lease agreement with NOPB include a requirement for NOPB to maintain a level of utility or acceptable allowable passenger train speed for Amtrak trains?
3. What speed is necessary to adhere to the Amtrak skeleton schedule⁶ for Train 1 which allows five minutes from departure Southport Junction to departure East Bridge Junction?
4. What was the speed of the CN main track over the Kansas City Southern crossing diamond west of Southport Junction prior to December 2019 when it was leased to NOPB?
5. What was the highest maximum speed for passenger trains allowed on the McComb Subdivision between East Bridge Junction and Southport Junction for the Relevant Period as shown in CN's employee timetables?
6. What was the highest passenger train speed listed in employee timetables in effect on the McComb Subdivision from December 2019 to present between East Bridge Junction and Southport Junction?

⁶ Amtrak Reply, Dec. 5, 2023 (".zip" (file name "Amtrak_STB_Native_0014.2.xlsm")).

NOPB

1. What was the maximum speed for passenger trains on the CN McComb Subdivision main track between East Bridge Junction and Southport Junction when NOPB began its lease and operation of that segment? See New Orleans Public Belt R.R.—Lease & Operation Exemption—Line of Ill. Cent. R.R., FD 36362 (STB served Dec. 13, 2019)?
2. What was the maximum speed for passenger trains on the CN McComb Subdivision main track on October 1, 2021, the beginning of the Relevant Period?
3. Produce a list of the maximum speeds in effect for the segment between East Bridge Junction and Southport Junction for each week of the Relevant Period.
4. Provide a report of any speed restrictions on the line segment between East Bridge Junction and Southport Junction during the Relevant Period. This report should include an explanation for all speed restrictions imposed, as well as the specific location(s) and effective date(s) of such restrictions.
5. Describe the condition of and operating speed over the CPKC (formerly KCS) crossing diamond west of Southport Junction during the Relevant Period through to the present. Has NOPB asked CPKC to maintain this crossing diamond in a way that allows for at least 30-mile-per-hour traffic? If not, are there any plans to improve the crossing diamond?
6. What was NOPB's target maximum authorized speed for passenger trains between East Bridge Junction and Southport Junction during the Relevant Period? If the target maximum speed has changed since the Relevant Period, state the new speed.

AMTRAK

1. When constructing the skeleton schedule for Trains 1 and 2, what was the required passenger speed assumed on the CN McComb Subdivision between East Bridge Junction and Southport Junction?
2. Has Amtrak made any request(s) to the responsible host railroad concerning the speed of the main track between East Bridge Junction and Southport from the start of the Relevant Period through the present? If so, describe those requests and responses.
3. Has Amtrak made any request(s) to the responsible host railroad concerning the operating speed over the KCS crossing diamond west of Southport Junction from the start of the Relevant Period through the present? If so, describe those requests and responses.

UP

1. What is the passenger train speed UP expects CN to maintain on the segment of main track from East Bridge Junction to Southport Junction for the operation of the Amtrak trains for which UP pays an annual fee? Provide a response that takes into account CN's September 25, 2023 reply in this docket, on page 4, which states:

Before Amtrak began operations in 1971, UP's predecessor Southern Pacific Transportation Company ("SP") operated the Sunset Limited as its own passenger train over the Segment, using trackage rights granted by CN's predecessor. Those trackage rights for passenger trains remain in force today between CN and UP. When Amtrak assumed direct operation of the Sunset Limited in 1971, it continued operating over the Segment as SP had done, via SP's (now UP's) trackage rights, and to this day Amtrak continues to operate via those rights. UP pays CN a flat annual fee for Amtrak's operation of the Sunset Limited trains via UP's trackage rights over the Segment.

It is ordered:

1. Amtrak, UP, BNSF, SCRRA, and CN are directed to provide narrative explanations of the root causes of the "Host-responsible Delays on a Run-by-Run Basis" listed in Part I of the Appendix, consistent with the instructions provided in this decision, by April 15, 2024.
2. UP and BNSF are directed to provide narrative explanations of the root causes of the "Select Host-Responsible Delays of 90 Minutes or More" listed in Part II of the Appendix, consistent with the instructions provided in this decision by April 15, 2024.
3. UP, BNSF, NOPB, and CN are directed to respond to the questions in the "II. Host-Responsible Delays—Focused Questions: Slow Orders by Subdivision" section of this decision by April 15, 2024.
4. Amtrak is directed to provide a response to the questions in the "III. Amtrak Responsible Delays" section of this decision by April 15, 2024.
5. BNSF, UP, CPKC, CN, NOPB, and Amtrak are directed to provide responses to the "IV. Site- and Party-Specific Questions" section of this decision by April 15, 2024.
6. This decision is effective on its service date.

By the Board, Neil E. Moyer, Acting Director, Office of Passenger Rail.

APPENDIX—Part I⁷
Host-responsible Delays on a Run-by-Run Basis⁸

Train	Origin Date	Note	From	To	Host RR	Type	Mins	Subdivision Name

1	11/09/2021	42	XLY	SND	UP	FTI	289	San Antonio Area/Sanderson Subdivision

⁷ Legend: “Train” = Amtrak train number, “Origin Date” = Amtrak’s recorded origin date for each train run, “Note” = a number sequentially assigned by Amtrak to each delay on a train run that restarts at “1” for each individual run, “From” and “To” = Amtrak recorded station codes indicating a segment where a delay occurred, “Host RR” = Amtrak’s recorded host railroad for each delay, “Type” = the delay code recorded by Amtrak, “Mins” = the duration of a delay recorded by Amtrak, “Subdivision Name” = the subdivision on which Amtrak recorded a delay.

⁸ The “Host RR” column uses the two-letter railroad codes provided by Amtrak. Therefore, for the purposes of the Appendix, “AM” = Amtrak, “BN” = BNSF, “CC” = CN, and “SC” = SCRRA.
