

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

I am and my husband Stan totally against
CR requiring the E_g-E track.

I am concerned about rescue vehicle delays,
their dereliction & poor road expression.

I live a short distance from the station
Old McHenry Road and am concerned about
ambulance & fire trucks getting to my house
should we need them ASAP. I also work
in Lake Juniper where I have to cross the
state in order to get to work.

Please reconsider our safety and health.

Thank you.

[illegible]

Joliet
