847-304-4846. Unfortunately I have a prior commitment, I will not be able to make the meeting tonight, I would have loved to stand up and speak at this meeting uh, but I will not be able to. I hope you will be able to use these comments uh as my input uh and that is what I would have said if I was able to make the meeting, I can not make the meeting tonight, Wednesday the 27th, I think it's the 27th, yes Wednesday the 27th of August. I am vehemently, vehemently against the additional rail traffic going through the Village of Barrington. It'll have a severe, severe negative impact uh on our way of life the reason we bought up here I am vehemently, vehemently, vehemently opposed to it and we should absolutely, positively not approve it and not allow it to go through. Thank you very much for your time. Please make sure my input gets put in. Thank you very much.
