Dave,

I left a message for you on your office phone Friday morning as I need to ask you a few questions concerning the Great Lakes Basin Rail Lines.

Our office has been contacted by our members and I have had several conversations about the scoping process that has wrapped up. We have a very active membership in the Chicago area.

Can you give me a call at your earliest convenience? I am in the office today and all day on Monday. If Monday works better for you that is fine. Just let me know when you will be calling and I will be available.

To start with the questions I have are:

- 1.) At what stage are you in the permitting process?
- 2.) How is it that GLB can have eminent domain authority so early in the process?
- 3.) How does eminent domain work in this situation?
- 4.) How long will it take to write the EIS after comments are submitted?

These are just a few questions I am getting and need to have a better understanding.

Thank you,

Phil
