

15240

Plainfield is a town criss crossed by train tracks. We already have trains so often and so long they can block several road crossings at a time. There is a crossing between my home and miy business 2 miles away. Many times a week I am stopped waiting for a train passing - the last one I counted had 175 cars! To increase this traffic from 16 to 40 trains will devastate Plainfield. We already have many traffic problems & high taxes and no hospital.....add 20 more trains a day.... the town will be an undesirable place to live
