

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

We strongly oppose Canadian Railroad passing through Barrington with significantly increased schedule. It will hurt our community with traffic congestion and safety issues for our children. Additionally, it will pollute our community's natural setting which has attracted a lot of its residents to Barrington to achieve life/work balance and enjoy the lifestyle it offers.
