ENVIRONMENTAL ASSESSMENT

DOCKET NO. AB-290 (Sub-No. 213X)

Norfolk Southern Railway Company – Abandonment Exemption – in Wise County, VA

BACKGROUND

In this proceeding, Norfolk Southern Railway Company (NS) filed a notice of exemption under 49 CFR 1152.50 seeking exemption from the requirements of 49 U.S.C. 10903 in connection with the abandonment of a line of railroad in Wise County, Virginia. The line extends 0.66 miles from Milepost LT-0.0 to Milepost LT-0.66 at Banner, Virginia. A map depicting the rail line in relationship to the area served is appended to the report. If the notice becomes effective, the railroad will be able to salvage track, ties and other railroad appurtenances and to dispose of the right-of-way.

DESCRIPTION OF THE LINE

According to NS, there has been no rail traffic on the line for the past two years. NS states that the land use in the area surrounding the rail line is 50 percent undeveloped and 50 percent residential. The rail line crosses Little Toms Branch and the 100-year floodplains and wetlands associated with this waterway. NS states that it does not intend to alter the contour of the roadbed during salvage, and that it has no plans to undertake in-stream work, with salvage activities to be performed in the right-of-way whenever possible.

ENVIRONMENTAL REVIEW

The applicant submitted an environmental report that concludes the quality of the human environment will not be affected significantly as a result of the abandonment or any post-abandonment activities, including salvage and disposition of the right-of-way. The applicant served the environmental and historical reports on a number of appropriate Federal, state, and local agencies as required by the Surface Transportation Board's environmental rules [49 CFR 1105.7(b)]. We have reviewed and investigated the record in this proceeding.

The National Geodetic Survey has submitted comments indicating that the proposed abandonment may affect one geodetic station marker.

The U.S. Fish and Wildlife Service has submitted comments stating that six Federally

listed endangered or threatened species, and one candidate species (four mussel species, the Indiana bat, the small whorled pogonia, and the Virginia spiraea) have been documented or may occur in Wise County. FWS also advises that to minimize impacts to the County's valuable aquatic resources, specifically the mussel species, NS should implement strict erosion control measures during salvage operations. If strict erosion control measures are taken, FWS believes that the proposed action will have no effect on Federally listed species.

CONDITIONS

We recommend that the following environmental conditions be placed on any decision granting abandonment authority:

1. The National Geodetic Survey (NGS) has identified one geodetic station marker along the rail line and requests 90 days notice to plan relocation of any markers which may be disturbed or destroyed. Therefore, we recommend that the following condition be imposed on any decision granting abandonment authority: **Norfolk Southern Railway Company shall consult with NGS and provide NGS with 90 days notice prior to disturbing or destroying any geodetic station markers.**
2. **The U.S. Fish and Wildlife Service (FWS) has indicated that several Federally listed endangered or threatened species have been documented or may occur in Wise County. FWS also advises that to minimize impacts to the County's valuable aquatic resources, NS should implement strict erosion control measures during salvage operations. If these Federally listed species are encountered during salvage operations, Norfolk Southern Railway Company shall consult with FWS pursuant to the Endangered Species Act, 16 U.S.C. 1531 et seq.**

CONCLUSIONS

Based on the information provided from all sources to date, we conclude that, as currently proposed, and if the recommended conditions are imposed, abandonment of the line will not significantly affect the quality of the human environment. Therefore, the environmental impact statement process is unnecessary.

Alternatives to the proposed abandonment would include denial (and therefore no change in operations), discontinuance of service without abandonment, and continued operation by another operator. In any of these cases, the existing quality of the human environment and energy consumption should not be affected.

PUBLIC USE

Following abandonment and salvage of the rail line, the right-of-way may be suitable for other public use. A request containing the requisite four-part showing for imposition of a public use condition (49 CFR 1152.28) must be filed with the Board and served on the railroad within the time specified in the Federal Register notice.

TRAILS USE

A request for a notice of interim trail use (NITU) is due to the Board, with a copy to the railroad, within 10 days of publication of the notice of the petition for exemption in the Federal Register. Nevertheless, the Board will accept late-filed requests as long as it retains jurisdiction to do so in a particular case. This request must comply with the Board's rules for use of rights-of-way as trails (49 CFR 1152.29).

PUBLIC ASSISTANCE

The Board's Office of Public Services responds to questions regarding interim trail use, public use, and other reuse alternatives. You may contact the Office of Public Services directly at (202) 565-1592, or mail inquiries to Surface Transportation Board, Office of Public Services, Washington, DC 20423.

COMMENTS

If you wish to file comments regarding this environmental assessment, you should send an **original and two copies** to Vernon A. Williams, Office of the Secretary, Washington, DC 20423, to the attention of Rini Ghosh, who prepared this environmental assessment. **Please refer to Docket No. AB-290 (Sub-No. 213X) in all correspondence addressed to the Board.** If you have questions regarding this environmental assessment, you should contact Rini Ghosh, the environmental contact for this case by phone at (202) 565-1539, fax at (202) 565-9000, or e-mail at ghoshr@stb.dot.gov.

Recent events involving a principal postal facility within Washington, D.C., may affect for a period of time the receipt of materials mailed to the Board, as well as customer receipt of reply mail sent from the Board. Until the timely delivery of mail has been reestablished, the Section of Environmental Analysis (SEA) requests that individuals filing comments regarding this or other environmental assessments take the following additional steps to ensure receipt of their correspondence during the comment period:

1. Telephone or e-mail the environmental contact indicated above prior to the close of the comment period and inform them that you have mailed a comment.
2. If the comment has not been received, the environmental contact will discuss alternative modes of delivery.
3. Retain a copy of your comment for your records should alternative modes of delivery need be necessary.

SEA is committed to carrying out its duties to the public and regrets any inconvenience these new procedures may cause.

Date made available to the public: **January 11, 2002.**

Comment due date: January 25, 2002.

By the Board, Victoria J. Rutson, Chief, Section of Environmental Analysis.

Vernon A. Williams
Secretary
