Transcript:

I am greatly against the CN's acquisition of the EJ&E Rail line. There are many, many reasons and as stated by Tom Cross, Minority Leader in our Illinois Congress, it would cause a lot of delays. I have enough delays to put up with now at the railroad crossings, therefore any additional acquisition by this new railway would probably cause more delays at the tracks and also there is the noise, and the pollution of everything of constant. Trains going through our communities to create a not well-liked environment. That's about all I have said, I'm just against it. Thank you so much
