

To Whom it may Concern. 1-9-08

I am a resident of Barrington, and I object to the notion that more trains will be coming through it is already bad enough with the few trains that do come through. I object to the extra traffic it will cause in town, the extra noise, My Childrens Safety. We live north of the tracks if we needed emergency or fire that would cause a problem if we were in serious condition, and the emergency or fire would have to wait for a train, not to mention the extra pollution it would create. Oh yea did I mention the extra noise,! Who ever is making

the decision And might be able to lessen the amount of trains that come through my town, I hope they make the right decision.

Sincerely Ken + Tiffany Busch
