How will CN's proposed acquisition of the EJ&E impact you?

We believe that coming from the Pacific Northwest, the CNRR can find other rail lines further west than the ES+E, that may not be quite efficient for them, but can be made to be as efficient without destroying lives and property of all the communities along the ES+E.

The rail traffic from the North West Coast (from China) can still connect with all the rails down to the Gulf Coast.
