RE: *CN Railway Company/EJ&E*
STB Finance Docket No. 35087

Dear Secretary Quinlan:

I am writing to express my support for the proposed relocation of CN's freight rail traffic to the south and west of Chicago. As you probably already know, CN is looking to purchase a portion of the Elgin, Joliet & Eastern rail line, and relocate most of the rail freight traffic in an effort to cut down on congestion, noise and air pollution. This would also increase delivery times for goods transported by trains.

Moving the trains will increase their efficiency, give a boost to our local economy, and give a break to everyone who has had too many startling awakenings when the trains roar by late at night or early in the morning.

I hope that you will support this plan. It would be best to give help to residents who are tired of being stuck in traffic.

Sincerely,

John Gaiser
