

Good day,

I, Mark Prizmic, would like to nominate myself as a suitable candidate for RSTAC member via small railroad representation (covering the small railroad representative vacancy). I have worked part-time in railroad real estate for approximately one year in Southern California. I'm very well connected in the field and would make a fine representation for the small railroad industry. In addition, I have experience volunteering for independent federal agencies, as I currently serve as a Selective Service System board member in Region III of the United States. I was nominated by President Trump and work jointly with Reserve Force Officers to enhance national security. Through the Selective Service System I have received experience in intergovernmental affairs, project analysis, and national security. I believe that I am a hard worker and have what it takes to exceed expectations when completing my required objectives. That being said, based on the eligibility requirements to be an RSTAC member, it's reasonable to infer that I'm qualified for this position. I'm more than willing to serve as an RSTAC member effective immediately upon appointment, as I've provided my contact information and look forward to hearing from your office in the near future. Thank you.
