Hardship for my mother Land owner Son, Grandson husband farmers of the land big field divided equipment to large to use on smaller some even landlocked create wetlands that they won't be able to farm loss of income Decrease value of Mom's and sister's house it will (the proposed route) be just few feet from their homes A tremendous inconvenience getting farm equipment to fields with crossings and township roads to be altered or closed It should be illegal the taking of private property for public use & be used to generate more corporate profits this will create several problems just to give them quicker time What about the farmers time Farmers time is critical when planting and harvest only have a short time because of weather. Please ask the Surface Transportation Board to deny the proposal.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submission, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
