

Our land, ~~located~~, is located ^{at} ~~and~~ Mile Points EI-25280

186-188 in Winnebago - South East Corner -

This proposed railroad is not feasible on this property for a great number of reasons

- ① This railroad completely blocks access to our driveway and home. The company wants to close Edson Rd at the west end
- ② This closure adversely affects my travel to work. Right now, I am at the 30 minute limit ^{to get to work} when on call and a trauma comes in. This speed closure would cause me to lose my job of 20 years - my pension, 401K, 27 years more of work, and benefits.
- ③ This would leave our remaining land worth nothing.
- ④ ~~or~~ This railroad proposes to cross acres of land we now have in a CRP program to prevent erosion
- ⑤ Not to mention the flood plain - The army corp of engineers measured a volatile 990 foot flood plain (almost 3 football) fields. With development in DeKalb County, this floodplain is growing.
- ⑥ Also goes through hundreds of thousands of dollars of established nursery stock ^{tree}

NOT 1 PART OF FRANKS RAILROAD IS FEASIBLE ON THIS PROPERTY.
