Date of Letter:		Email Address:	IBUYRMP@YAHOO.COM
Group's Address:	1644 Cove Place	Group's Zip Code:	32952-5966
Group's City:	Merritt Island		
Group's State:	Florida		

Submitter's Comments

To the surface transportation board. Please be advised that I am against building a rail across the Banana River. The lagoon has a limited outlet to the Atlantic Ocean through the lock at Port Canaveral. Net water flow is from the IRL to the BRL because the rate of evapotranspiration exceeds rainfall and basin inflows. The BRL system is a "negative estuary," characterized by low freshwater inflows and poor flushing, resulting in high water residence time. The Negative Impact can only be Increased with the rail line further cutting into water flow.
