RE: CN Railway Company/EJ&E
STB Finance Docket No. 35087

Dear Secretary Quinlan:

As a resident of Dolton, I would like to express my support for CN Railway's acquisition of a segment of the EJ&E line. The acquisition will reduce rail congestion throughout Chicago.

I have lived in the area about five years and daily, I am forced to deal with the effects rail congestion has on commuter traffic. On occasion, I have had to wait at a railway crossing for up to 15 minutes, and lesser periods of time on more numerous occasions; most notably near my church at the Columbus Avenue and 74th Street crossing.

Constantly having to wait in traffic, more often than not results in my missing appointments just about every month. The delays occur weekly, however. Rail congestion in Chicago is definitely a problem that needs immediate attention and I believe CN has a solid plan that will work to improve the matter. I urge you to review CN's plan and approve this measure.

Regards,
