Kenneth

I am in receipt of the environmental assessment regarding the above referenced action and note the recommended condition regarding a NYS coastal management certification. A Consistency Certification is necessary for this action. CSX has provided certain materials to this office regarding the proposed abandonment and were subsequently notified that certain necessary data and information was required in order for the Department to undertake its review. CSX has not responded to the request and consequently, our file has been closed. CSX will need to re-file with us in order for our review to commence.

Thank you

-Matt
