Comment Form

**Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company**

STB Finance Docket No. 35087Date: 09/09/2008

Comments must be submitted by September 30, 2008.

A business, in my opinion, has obligations, equal in magnitude, towards its share holders, its employees and, last but not the least, the society they operate in and serve. I am not competent to make authoritative statements questioning if CN is failing here with regard to the third party a business owes its obligation to. But after carefully listening to the other public individuals, who spoke today, I am reasonably convinced that the gains for CN (and any others) is going to at a severe cost to the following:

- 1) Residents
- 2) Commuters
- 3) Public service personell
- 4) Students
- 5) Children

I don't mean that business operations cannot expand, but such expansions should not be accomplished by exploitation of the weak - here the above mentioned people. I urge STB not to allow this deal UNLESS everything needed to ensure public welfare and safety are made part of the project.

YOUR INPUT IS IMPORTANT!
