Transcript:

I'm calling in regards to this insane takeover of our neighborhood with this train. It does not belong here. It was not scheduled, it was a low maintenance line when I moved here. As far as diverting from other people, when they moved there they knew there was 30 trains going by in Chicago, they chose to move there. We moved here knowing this was a basically shut down line, not something that was going to be opened up to 30 or 35 trains a day. That's the difference between Chicago people and here, they knew what they were getting into when they moved there. It was set up already. This is being changed after we purchased our houses here and I would like to see it stopped and especially from a foreign company taking over, it's bad enough the rest of the country is being taken over by foreigners. And that's my comment. Thank you. Bye
