

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8-27-8

Comments must be submitted by September 30, 2008.

a few months ago EJ&E remodeled the crossing @ Northwest Highway. Although it was a complete shutdown for 5 working days I firmly believe it was a look into the future if this transaction occurs. Traffic was an absolute disaster for that week. My son stays at the Park District during the day and we live on the other side of the tracks from the Park. I had to drive into Lake Zurich to get around the gridlock. The trip took the better part of an hour one way. Imagine now a train blocking all major routes through the town. Vehicular and commuter rail would both be affected. This is in addition to my previous comments on this issue. Please revisit the issues on the EIS, I believe the draft seriously understates the severity. Not just for my community but for all of them along the route. Thank you.
