

080206 Fenda

Hello. My name is Nika Fenda. My telephone number is 1-630-428-2112. I live at 2559 (indiscernible) Drive in Naperville. I'm ringing in joining my subdivision to leave some comments to discuss the transportation board regarding the new train lines that are going to be put in and the new materials that are going to be carried across there. We feel that we do not want the train storage near the schools, we want to limit the length of trains to decrease traffic times, no trains idling near neighborhoods, and we want to have Hasmat plans in place before acquisition and soil testing before construction, no switching noise by our schools, drainage for properties, the list goes on and on. Basically, we have some specific concerns regarding that we foresee more traffic problems. We want to identify sensitive receptors like schools and hospitals that are within a mile of the track in case there was a hazardous spill. And also we would like to ask that hazardous loads do not run while our children are in school like Petersen Elementary is very close to there. And we need to have a quiet zone established before traffic triples so the trains will not be allowed to blow their horns at every intersection. Maybe even some of our neighborhoods need a sound rule. I believe everybody in this area will be negatively impacted by this takeover and naturally we are all against it. So we need these public safety issues addressed and would like to stop the process. Thank you. Bye-bye.
