There are many negative effects of the rail-line going right through Merritt Island, Koro park, etc. It will hurt the Savannahs housing project by noise and vibrations, as well as disturb seagrasses, wildlife, marine mammals, and endangered species. Many homes are near-by the proposed rail-line so there is also a safety factor to consider as there is a neighborhood park on golf course hole 15. Air quality will also have a negative impact on this established community. Please consider how this will effect home prices as well.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
