Mrs. J. J. J.

I am a resident of Frankfort, IL, one of the towns that will be greatly and negatively impacted by the proposed purchase of the E & E by Canadian National. We have worked long and hard in our town to build something beautiful, safe and workable. CN threatens all that and seems unwilling to take any responsibility for

the impact it will have on our and so many other towns. I know Canada is a friendly neighbor, but do we really want to allow CN to expand its business at the cost of so many US towns? I'd hate to be stuck on the wrong side of the tracks when one of the many daily trains comes through and I can't get to a hospital. Please Do Not Agree to the Abbreviated Timeline.

Sincerely, Carolee J. J.
