Transcript:

I have a comment regarding the CN acquisition of the EJ&E rail line. I am against the, the more traffic, the increase in the traffic for this area, especially going north and southbound we don't have a lot of, you know, good toll roads that will get you there quickly so, especially in rush hour, to have that additional train traffic is, is just absurd. i thank you and I hope that you will take these comments seriously. Thank you
