Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: Aug 27, 2008

Comments must be submitted by September 30, 2008.

Sirs:

As a long-time resident of Barrington, I am trying to understand your Railroad's attitude. The impact on our town and residents is your responsibility. When you increase freight traffic, you are making a negative change. This is not the town's doing, so why is it our responsibility to correct or endure!?

Most problems have a solution. In math - they all do. If in fact your new route through our town would help the environment or nation, you should be willing to do all that is necessary to fix the problems you'd be making.

We, in Barrington, aren't unreasonable. If you would be a responsible Compass and resolve all our issues, we could all live together.

You have heard all our concerns from traffic to emergencies to hazards to water. Please address these issues.

Can you really ruin communities at the cost of your efficiencies!

YOUR INPUT IS IMPORTANT!
