Docket # FD 35952 Great Lakes Basin Transportation, LLC Project

To all it concerns:

We are totally against the GLBT Project.

We're for progress and actually have wind mills which pay a yearly rent for the use of the land. \$20,000 per acre does not pay for years of lost income from a farming operation and/or the inconvenience of having to travel - down township, county or state roads with slow, large equipment to get to the rest of the farm land.

Very sincerely,

Linda Hinkston

To all it concerns:

Urge you to deny the request
for this project!

Among many negative effects of this project is the closing of many township roads and trying to cross safely those that are left open. This will affect school buses, emergency vehicles, farm equipment trying to get to the other side, families going to work in town.

Very sincerely,
