Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8.27.08

Comments must be submitted by September 30, 2008.

I have lived within a quarter mile of the EJ&E line for almost 50 years & I have never had a problem with it - until now. I do not want 40 trains a day destroying my quality of life so that CN can increase its bottom line. I do not want my property values negatively impacted. I do not want hazardous waste spills endangering my home, my children, my environment. I don't need an ambulance or a fire truck. I don't want the cesses blocked by side long trains. I don't want the noise and congestion and traffic nightmares that will be created. It would be in Barrington and the traffic is already a problem - this acquisition will compound it to the point that Barrington may no longer be the wonderful place it is. I think any company - a foreign company - CN - has no right to do this to an American community. Shame on you & shame on the STB for allowing it to happen!

YOUR INPUT IS IMPORTANT!
