Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

Our Barrington Community is already heavily burdened with gridlocked traffic in our downtown area between Route 54 (Hough Street), Route 14 (Northwest Highway) and Lake Cook Road (Main Street). Increased freight traffic from CN Railroad will make this situation unsafe for citizens who live in this area. We are very concerned with the economic and environmental impact this gridlock will have on our community and its visitors. Most importantly, however, we are most concerned about the very negative impact this will have on our police, fire & ambulance response. The safety of our community is at stake.

We strongly urge that CN be denied the opportunity to gain financially at the expense of our health & safety.
